Soft Skills

- Problem Solving
- Team Collaboration
- Attention to Detail
- Adaptability
- Learning Ability

Hard Skills

Frontend Development:

Next.js, React.js, Angular CLI – Learning, JavaScript, HTML5/CSS3, HTML DOM, Responsive UI

Backend Development:

Node.js, Express.js, Spring Boot – Learning, RESTful APIs, JWT Authentication/Authorization

Architecture & Design:

Clean Architecture, Microservice Architecture, Full Stack Development

Version Control & Tools:

Git, GitHub

Testing:

Jest (Unit Testing), Playwright (Automation Testing), Puppeteer (Performance Testing)

Education

- St. Xavier’s College (2019 – 2022) – BCA, GPA: 74
- Hindusthan College of Arts & Science (2022 – 2024) – MCA, GPA: 83

Work Experience

Full Stack Developer

May 2024 - July 2025

Disisailor | 97G/4C/1,1st Floor, PSS Jayam Towers, 1st St, Teachers Colony, Kandhasampuram, Thoothukudi, Tamil Nadu 628008

- Developed and maintained 3+ scalable web applications using Next.js, React.js, Node.js, and MongoDB.
- Collaborated with designers and backend teams to deliver responsive and user-friendly interfaces, improving user engagement by 20%.
- Integrated design with backend logic, ensuring seamless performance and scalability.
- Delivered visually engaging solutions that enhanced client satisfaction and retention.

Internships

The Mind IT Solution

Dec 2023 - Apr 2024

Role : Full Stack Developer

Contributed to real-world software projects as a Full Stack Developer Intern, applying quality assurance methodologies and development practices. Collaborated remotely with a cross-functional team, strengthening both technical expertise and teamwork skills.

Tech Stack :

Frontend: Python , Flask .

SRG InfoTech IT info solution

Oct 2022 - Nov 2022

Role : Software testing

Completed an internship in software development, gaining hands-on experience in quality assurance methodologies and contributing to real-world projects. Worked remotely and collaborated with experienced professionals to understand development workflows and best practices.

Tech Stack :

Testing: Manual Testing .

Projects

Zentra 

Jun 2024 - July 2024

Role : Front End Developer

Company: Digisailor

Designed and developed a responsive landing page to showcase client services and strengthen brand presence. Integrated Framer Motion animations for smooth, modern transitions, ensuring consistent performance across devices. Delivered a visually engaging and interactive interface that improved user retention and engagement.

Tech Stack :

Frontend: Next.js, TypeScript, Tailwind CSS , TypeScript .

Al Daleela 

Aug 2024 - Nov 2024

Role : Front End Developer

Company: CLIENT COMPANY (ispatial techno solutions pvt ltd)

Live: <https://www.aldaleela.ae>

- Solely developed the complete frontend, including admin dashboard, interactive maps, user feedback system, and all application logic.
- Owned the project from pre-live to post-live, ensuring stability and smooth release into production.
- Resolved 531+ bugs within 1.5 months, including peak performance of 100+ fixes in a single day, greatly enhancing reliability and client trust.
- Collaborated closely with backend developers by debugging and implementing integration logic, ensuring seamless communication between frontend and backend services.

Tech Stack :

Frontend: React.js, TypeScript, Tailwind CSS.

DevPortal 

Dec 2024 - July 2025

Role : Full Stack Developer

Company: CLIENT COMPANY (ANZ Bank)

Live: <https://developer.online.anz.com>

- Built and enhanced ANZ's Payment API Developer Portal, enabling external developers to securely integrate banking services.
- Developed mock APIs for payment services, improving testability and reducing dependencies on production systems.

- Implemented all user flows (login, forgot password, etc.), search functionality (including a major update), and responsive UI for all device types.
- Contributed to testing strategy: performance testing, accessibility testing, and automation with Jest, Playwright, and Puppeteer.
- Enhanced backend reliability by adding structured logging across 4 microservices and integrating with OpenTelemetry for monitoring and tracing.

Tech Stack :

Frontend: Next.js, TypeScript, Tailwind CSS, Express.js.

Backend & Architecture: Microservices

Monitoring & Logging: Google Cloud Platform (GCP), Winston Logger, Open Telemetry

Testing: Jest (Unit Testing), Playwright (Automation Testing), Puppeteer (Performance Testing)

Certifications & Workshops

- Introduction to API and RESTful API – Great Learning (Aug 2025)
- Front End Development (HTML) – Great Learning (Aug 2025)
- Workshop on Data Analysis using KNIME Tool – Hindusthan College
- International Workshop on Cybersecurity – Hindusthan College

Additional Learning:

- Seminar on Python With Data Science (Sep 2022)
- Seminar on AI Implemented Cloud Application (Sep 2022)

Languages

- English (Professional Working Proficiency)
- Tamil (Native / Bilingual Proficiency)
